

Home Learning Curriculum: Year 11

To support your child's home learning, we will be following the normal school timetable. This is based on students' current curriculum sequence across all subjects through high-quality remote teaching and learning.

If there is a whole school or entire Year group isolation period at home, this is the timetable that your child will be following. This is to ensure that normal school routines are transferred smoothly to home learning.

Parent information

We will be focussing on high-quality remote teaching and learning, that establish routines. Lessons for each subject ensure the elements of effective teaching are present - for example clear expectations, scaffolding and feedback. There will be a recorded part to each lesson which will be made accessible via Show My Homework. All subjects will have a live tutorial at the end of each lesson (timings shown above) to ensure that any misconceptions from the recorded lesson/tasks set have been addressed and the teacher can gather feedback to inform the next stages of learning. The live teacher tutorial at the end of each lesson will be via Google Meet and the link to join each meeting for each subject will be shared on Show My Homework by the classroom teacher. There will be a Monday morning message each week from Mrs Crawley, Mr Terris and your child's tutor accessible via Show My Homework. Your child will be expected to take part in their normal Friday tutor quiz each week via a Google Meet link (KS3 tutor quiz starts at 11.25am and KS4 tutor quiz starts at 11.55am).
