

Seneca is an online platform run independently from school. We do not have admin rights so cannot set up and modify accounts. Students and staff each sign up for accounts, then join virtual classrooms online.

If you do not already have a Seneca account, the first step is to sign up for one by clicking here...

...then enter your details in this box. We suggest using your school email address and password.

After signing in, you will need to join up to the classes your teachers have created. You will get a different access code for each of them.

Click here to see your class list, and to join new classes.

Your classes will appear here!

You aren't part of any classes yet. You can join a class by clicking on a link from your teacher or by entering a class code.

Join class

Click here to join a class if you haven't already done so.

Join a class

To join a class either click on an invite link from your teacher or enter the class code.

Join class

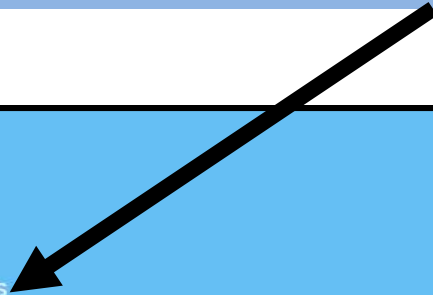

Cancel

Then enter the class code you have been given.

Your new classes will show up here once you have joined.

To see your assignments, click here.

The screenshot shows the SENECA user interface. At the top left is the SENECA logo. The top navigation bar includes links for Home, Courses, Classes & assignments, and Cape Student. Below the navigation bar, there are two tabs: 'Classes' and 'Assignments', with 'Assignments' being the active tab. To the right of the tabs are two buttons: 'Invite a teacher' and 'Join class'. Below the tabs, a card for 'Cape Science: Year 8' is visible, featuring a savanna scene with animals and the text 'Science Teachers'.
