Section 1: Introduction

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum;
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided;
- Improve the availability of accessible information to disabled pupils.

Our school aims to treat all students fairly and with respect. We are committed to providing access and opportunities for all students without discrimination of any kind.

Our school is committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school works in partnership with community and external agencies, as appropriate, to develop and implement our plan.

A range of stakeholders are routinely consulted to ensure that policies and procedures reflect the views of students, parents, Governors, staff and the wider community.

Section 2: Legislation and Guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day-to-day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of auxiliary aids or adjustments to the school premises.
